Normingda

Ignition coil

Why are we different ?

What is the value of Normingda ?

Our professional staff are offering you ignition coils with high quality, bringing you the advantages of the high performance-price ratio.

Normingda

**TEAM
WORK**

Why do we launch products to the market earlier ?

In Normingda , advance production equipment is being adopted.

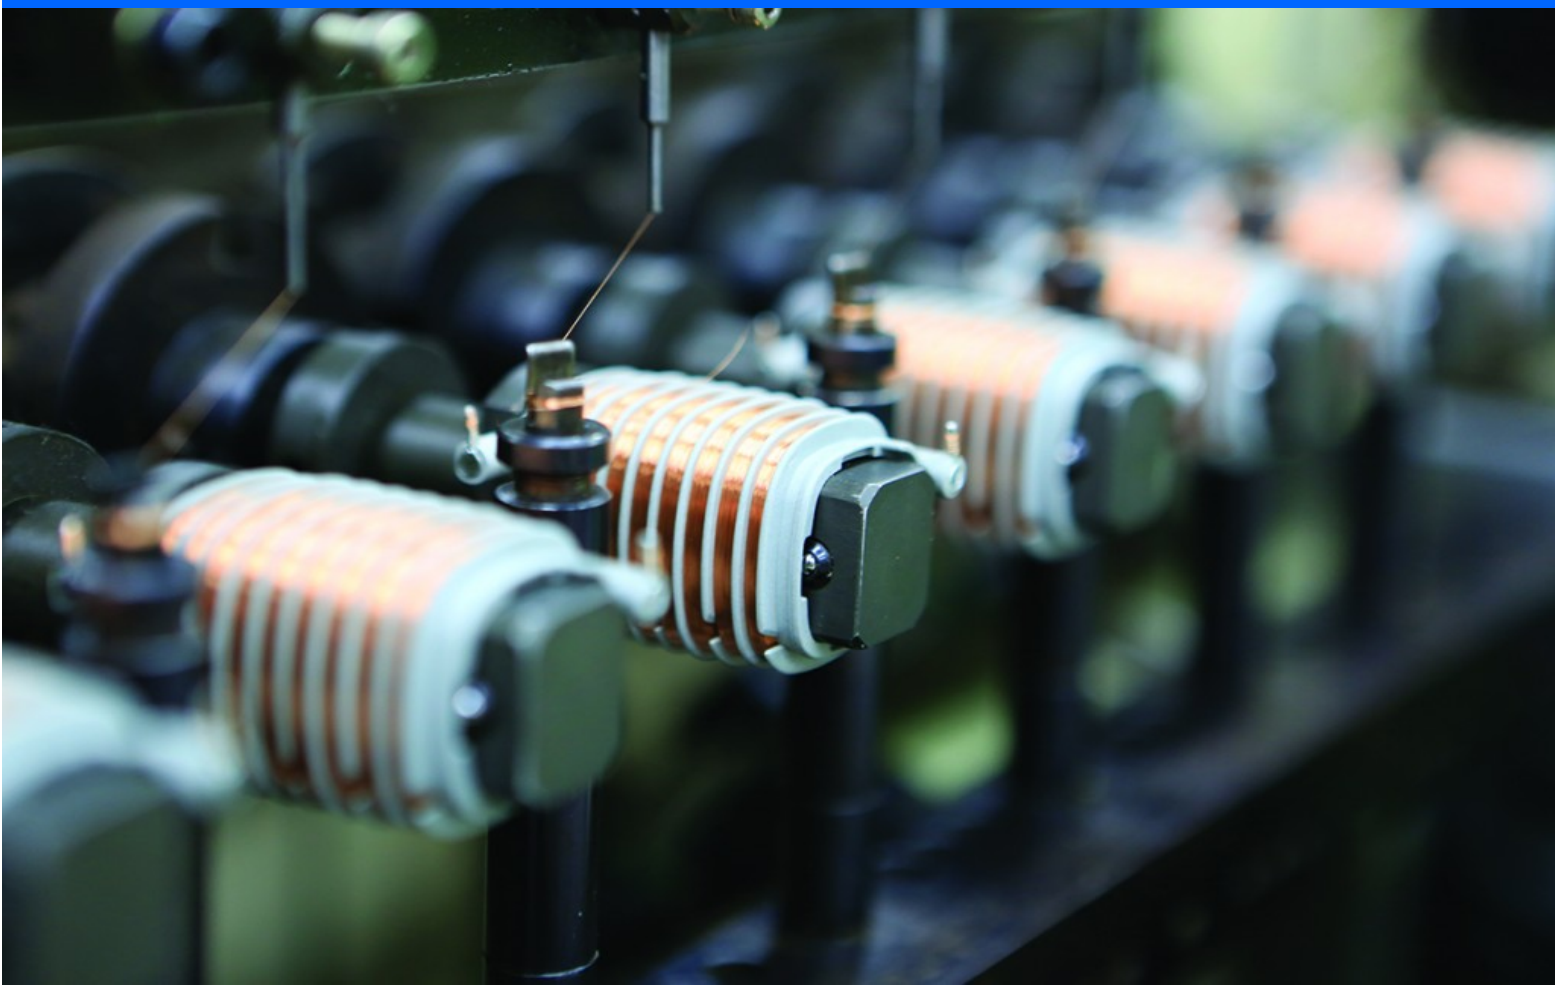

Normingda

Why do we create so many new products every year?

The professional engineers from Normingda have rich experience in R & D of ignition coils for more than 20 years.

Normingda

Why is our product failure rate so low?

The plug ignition coil produced in Normingda passed the following test:

- 130 °C 2 hour
- 40 °C 2 hour
- Total 50 cycles
- Open-load test 4 hours

Normingda

Why are our products of good quality?

In Normingda,
raw materials with high quality are adopted,
such as :

- ELEKTRISOLA copper wires
- BASF plastic particles
- HUNTSMAN epoxy resin and etc.
